

PRESENTATION

PRIMEAIR
AIR CONDITIONING

PRIME AIR is a specialized company in HVAC (Heating, Ventilation and Air Conditioning) solutions for confort and industrial process facilities, dedicated to international market.

Is specialist in design, project and execution of HVAC in the following segments: Industrial, Commerce & Services, and Residential. Provides a total response to client's needs in "turnkey" way, and in the various specifications.

Integrated on Seabra Group, Prime Air has nowadays own structure in Angola and Portugal.

Prime Air aims to be a major player in the global market for Air Conditioning.

Supplier of competitive solutions for its customers throughout the world.

Prime Air performs entire special facilities. Designs and installs "turnkey" solutions in various specifications, providing a comprehensive response to customer needs.

- Specialized engineers transform customer requirements into highly competitive projects.
- Prime Air ensures the production and marketing capacity throughout the world.
- Prime Air has a customer service team and technical support available 24 hours a day, 7 days a week.

A decorative banner at the bottom of the page features a vibrant green field of daisies under a blue sky with white clouds. On the right side, two paintbrushes are shown: one with a green bristle head and one with a pink bristle head, both with wooden handles. The text "PRIME AIR PERFORMS GLOBAL SPECIAL INSTALLATIONS" is centered in a bold, blue, sans-serif font.

**PRIME AIR PERFORMS GLOBAL SPECIAL
INSTALLATIONS**

A blue-toned photograph of a modern interior space, possibly a hallway or a large room, featuring curved, parallel lines that create a sense of depth and movement. The lighting is soft and directional, coming from a bright source in the distance, casting long, gentle shadows and highlighting the textures of the surfaces. The overall mood is clean, futuristic, and serene.

OUR POSITIONING

VISION

Becoming an international benchmark of “knowledge” and “Know How”, turning us into a strategic partner for a long-term relationship with our clients.

MISSION

Constantly seek in a consistent and nonconformist manner, the best and most innovative engineering solutions, guaranteeing our clients the creation of added value to their businesses.

VALUES

SERVICE FOCUS ON THE CLIENT. A FRIEND IN NEED IS A FRIEND INDEED.

COMMITMENT WALK THE TALK. THE ROAD TO HELL IS PAVED WITH GOOD INTENTIONS.

PROFESSIONALISM KNOW MORE. ACT BETTER. CURIOSITY DID NOT KILL THE CAT.

ACCURACY TELL THE TRUTH NO MATTER WHAT. EVEN WHEN IT'S NOT GOOD FOR US.

AVAILABILITY ALWAYS GO THE EXTRA-MILE. WHERE THERE'S A WILL, THERE'S A WAY.

TEAM SPIRIT ONE FOR ALL, AND ALL FOR ONE, OF COURSE.

RESPECT ALWAYS WALK ON THE BRIGHT SIDE OF LIFE. IT'S GREAT.

WE ARE PRESENT: PORTUGAL • ANGOLA • ALGÉRIE • EQUATORIAL GUINEA • MOZAMBIQUE • SAUDI ARABIA • SPAIN • UNITED ARAB EMIRATES • VENEZUELA

WE DID WORK: BRAZIL • CAPE VERDE • FRANCE • MORROCO • SAO TOME AND PRINCIPE • SOUTH AFRICA • TIMOR

Comercializes and executes projects anywhere in the world. Its mission is to be a global player specializing in special technical facilities.

Air conditioning, Heating and Ventilation, Renewable Energy, Water Treatment, Wastewater, Fire, Compressed Air and Technical Management are the main valences of a company focused on comprehensive response to customer needs.

Prime Air places at your disposal a mechanical engineering team of refrigeration in many parts of the world, able to meet the needs of the HVAC industry and therefore able to respond effectively in three main areas: **Industry, Commerce & Services and Residential.**

PRIMEAIR
AIR CONDITIONING

Prime Air places at your disposal HVAC systems solutions for:

- Factories;
- Logistics Warehouses;
- Supermarkets;
- Hypermarkets;
- Medical Warehouses;
- And others.

It develops “Turnkey” solutions all over the world, ensured by its project team, using load calculus and selection high tech software.

Prime Air ensures the supply and installation of integrated HVAC systems in:

- Hotels;
- Stores;
- Building office centres;
- Hospitals;
- Schools;
- Traditional Commerce; Comércio tradicional;
- And others.

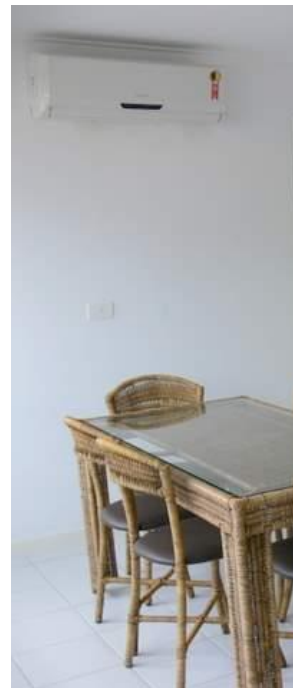

It develops “Turnkey” solutions all over the world, ensured by its project team, using load calculus and selection high tech software.

Prime Air places at your disposal the supply and assembling of HVAC systems in:

- Condominiums;
- Villas;
- Apartments;
- Houses;
- And others.

It develops “Turnkey” solutions all over the world, ensured by its project team, using load calculus and selection high tech software.

PORTFOLIO

NATIONAL TECHNOLOGICAL INSTITUTE OF HYDROCARBONS OF EQUATORIAL GUINEA

Installation of Heating, Ventilation and Air Conditioning, Technical Centralized Management, Water, Sewage, Fire, Compressed Air, Irrigation and Gas networks as well as the Electrical Installation associated in several buildings that comprise the complex ITNHGE (National Technological Institute of Hydrocarbons of Equatorial Guinea) in Mongomo

KING MARKET - SCORE

Installation of an air conditioning system and centralised air treatment using rooftop systems and VRF, mechanical and emergency ventilation to be installed in the Cash/Distribution Platform building belonging to King Market, to be built in Nova Vida, in the city of Luanda.

RESIDENTIAL CONDOMINIUM NOBLESSE - ODEBRECHT

Mono-split and multi-split air conditioning system installation in luxury residential complex located in South Luanda.

RESIDENTIAL CONDOMINIUM ARTE YETU - ODEBRECHT

Mono-split and multi-split air conditioning system installation in luxury residential complex located in South Luanda.

INDUSTRIAL DETERGENT FACTORY – REVIVA - REFRIANGO

Installation of the air conditioning and ventilation system for the Industrial Detergent Factory – REVIVA, located in Kikuxi, Angola.

Rooftop and VRF installed air conditioning system with air renewal of inhabited areas.

AVAC solution with Rooftop installation in the industrial area and direct expansion split type system in the office area.

Specific lab treatment using an Air Treatment Unit solution with direct expansion battery, VRV condenser, and environment pressure control.

FLAT VELEIRO HOTEL - ANGOLA

VRF air conditioning system with mono-split, with air renewal of the inhabited areas, kitchen exhaust systems and mechanical ventilation for the sanitary facilities.

20 IKA HOTELS – ANGOLA

Air conditioning, heating and ventilation installations of 20 five star hotel units in Angola.

41 IU HOTELS – ANGOLA

Air conditioning, heating and ventilation installations of 41 three star hotel units in Angola.

INGOMBOTAS BUILDING – ANGOLA

Installation of VRF air conditioning system with two tubes on most spaces.

This system will also be integrated in the new air vents to control air temperature, these systems blown directly into conditioned spaces.

ESPAÇO AVENIDA - ANGOLA

Ventilation and Smoke Extraction System.

MIX CENTER - ANGOLA

Ventilation and Smoke Extraction System.

CASH & CARRY ANGOLA CAMAMA

Commercial Area – Air conditioning systems with Rooftop, air renewal of inhabited areas and mechanical ventilation.

Office Area – Multi-split and Mono-split air conditioning systems, with air renewal of the inhabited areas and mechanical ventilation for sanitary facilities.

BAÍA BUILDING – Alves Ribeiro Construções

The building harmoniously combines residential, offices and commerce spread by its 24 floors above ground, and parking facilities 5 floors below the ground.

The air conditioning facilitates, are VRF type for residences and Mitsubishi multi-split systems for the office areas.

The residential has CMV type ventilation (controlled mechanical ventilation) in order to guarantee Indoor Air Quality (IAQ).

Mechanical ventilation CO2 control and ventilation extraction for the covered parking lot.

WE ARE SPECIALISTS
IN AIR CONDITIONING SOLUTIONS

WE ARE PRESENT IN THE WORLD
WITH THE BEST AIR CONDITIONING SOLUTIONS
